

THE SEQUEL TO TEAM WATTERSON DARWIN

SEASON 2 | VER. 1.0 | CHARACTER 4

DISCLAIMER: NONPROFIT FAN WORK. DO NOT REDISTRIBUTE COMMERCIALY.

FROM SPAM TO SKILL

After mastering "BIG HEAD", Darwin began to take after M. Bison and developed his own fighting style.

PORTAL 3

Darwin's imaginary portal guns do more than just make-believe. They're tools for controlling the enemy's airspace.

OVERVIEW

I'm sure a certain episode of TAWOG brought you here. You're in for a treat. The long-awaited sequel to The Watterson brothers is here.

Darwin's power lies not only in his fireballs, but also the ability to place portals. During Maxmode, his forward dash becomes a teleport. Use them to confuse your adversary and take control!
